Job-Beschreibung

As part of our Game Operations Team, you are responsible for keeping a few hundred game servers in check using puppet and python. You support the game developers in automating their release/deployment workflow and act as a technical partner in improving/evaluating the current or future technologies.

Your Profile:

- You feel comfortable troubleshooting Linux systems using common tools such as top, ps, ss etc.
- You think that setting up new servers should be done by configuration automation tools such as Puppet
- You like automatizing repetitive tasks using Python, Shell or other tools
- You enjoy hunting hard bugs and diving deep until you find the root of the problem
- You are an avid learner and love to explore new technologies and test them
- You love to collaborate with other System Administrator and Developers and optimize existing systems and processes such as deployment pipelines

Our environment:

- KVM virtual machines comfortably provisioned from our office using tools and libraries such as Foreman, libvirt
- Thousands of Debian GNU/Linux VMs configured by Puppet and constantly watched by Nagios and Graphite
-

A wide environment of Java, PHP, Python apps running on NGINX, PostgreSQL, MySQL, Redis, Memcache and more...

- Special purpose software developed by our developers and you using Python, Go or small Shell scripts
- Deployment pipelines for system administration tools and developers using Jenkins, Gradle, Maven, Artifactory etc.
- FreeBSD software routers and load balancers in data centers managed by our own stack
- Powerful organizational tools and methods such as Slack, Bitbucket, and JIRA

Why you should join us:

- We think everyone should use their preferred platform; whether it is Linux, Mac OS or Windows. We provide you the right hardware for your style
- Access to various personal development possibilities for your technical or soft skills
- We support your attendance to conferences in Germany and abroad as visitor or speaker
- Shape the success story of InnoGames with a great team of driven experts in an international environment
- Competitive compensation
- An atmosphere that empowers creative thinking and strong results in a healthy and stable company
- Exceptional benefits ranging from flawless relocation support, company gym, smartphone or tablet, company bikes, roof terrace with BBQ and much more...
