the commercial aspects of the game from production, softlaunch to live operations.

- **Communication.** You communicate plans, decisions and progress in a clear way to all stakeholders and ensure thorough documentation.
- **User Oriented.** You make sure that the game perfectly meets the needs of the target group
- Deliver results

□

### Your profile...□

- 5+ years of game production experience, preferably in mobile game industry
- Multiple years of experience in professional game development taking games all the way from concept development through to delivery.
- Excellent knowledge of F2P and the mobile market
- Proven track record of successfully shipped games
- Analytics. You are business-savvy with a very deep knowledge of Free2Play, KPIs, current trends of business models and user monetization in the mobile space.
- Very good agile project management and organisation skills.
- Result-oriented, proactive work ethic.
- Deep Passion for mobile game.
- Understanding of target audience.
- You own a smartphone, love mobile games and deeply embrace F2P.
- Excellent written and verbal communication skills in English.□

□

### We offer...□

- A spirited, inspiring, international and enthusiastic team
- The best and brightest company in producing and distributing HTML5 Messenger Games
- The chance to produce Messenger games for millions of gamers globally
- Valuable insights into global expansion, start-up scene and entrepreneurship
- Flexible working-hours and flat company hierarchy
- Inspiring company breakfasts, team events
- Perks: fresh fruits, cold drinks, tee, coffee, discounted local transport ticket, health package etc.

## About SOFTGAMES

Based in Berlin, the creative capital of Europe, SOFTGAMES together with its ROFL brand is the leading developer of games for Facebook Messenger. Further SOFTGAMES is operating the world's largest platform for HTML5 games distribution and monetization outside the Messengers. We're delivering fun to tens of millions of players every month across 6 continents on the device of their choosing. Our vision is to help users to instantly discover
