Your tasks:

- You transfer product and feature-concepts and you design, develop and build user-interfaces and layouts for websites, applications and other projects
- Together with our Product Team you craft visual concepts for our existing and new websites and applications for either our inhouse projects or customers
- You consult and work with our Product, Software Engineering and Design Team to build a product for our user to enjoy
- No one's perfect. Help us build solid, efficient processes for future projects and enhance our current ones

Your Profile:

- You successfully completed a degree in Web Design or have a comparable degree and you have at least 3-5 years of experience in UI/UX design, responsive web-design or other user-interaction based interfaces
- You are proficient in HTML and CSS, experience with Smarty Template Engine and the basics of JavaScript are appreciated (PHP and NodeJS are nice to have but no requirement)
- You are familiar with Git and/or other version control systems
- You are proficient in Adobe Suite and other industry-standard design tools, knowledge in InVision is a plus
- You are excellent in time management and have the ability to meet design budgets for projects while still producing memorable and well-executed work
- Experience in working in Gaming/Esports or other competitive sports products are a plus

What we offer:

- You work in an international team with flat hierarchies and quick decision-making processes
- You enjoy an open corporate culture and a flexible time management
- You are a part of a future-oriented company in gaming and esports
- You have a fully equipped modern kitchen (including coffee, tea, water, fruits) at your disposal
- You can team up with and play together with your colleagues online after work (2x 1 Gbit/s Fiber Links avg. 8ms Google Ping)
- There is a free car parking at your disposal and Spandau's old town is only a 5-minute walk away
