Job-Beschreibung

[stillalive studios GmbH](#)

You want to create unique core games, use top-notch techniques and influence the design process of the games you will be working on? You would like to work from home or work here with us in our office in the middle of the Alps? We are a small team where all of that is possible. Don't be shy! We are looking for you.

Games-Career.com ist ein Angebot von:

Quinke Networks GmbH
Bei den Mühlen 70
D-20457 Hamburg

The kind of stuff you'll be doing:

- Design, implement and test front-end and back-end game systems & logic
- Work on awesome core games for Steam
- Work with two major game-engines: Unity5 and Unreal4
- Work with state-of-the-art tools & workflows (VS, ReSharper, ...)
- Work with a competent and enthusiastic team of indie-game-devs
- Collaborate remotely with other team-members

☐

Who are we looking for:

- You have good knowledge with either Unity or UE4
- You have good working knowledge of C# and C++
- You know how game-engines work internally – it's not just a black box
- You love playing video games, especially PC games!
- Solid math knowledge (linear algebra, geometry)
- You know about OOP and are familiar with (code) design patterns
- You can work self-directed and reliably
- You like working in a team, solving problems together
- You have good communication skills in English both verbally and in writing

☐

The ideal candidate also has:

- You have professional work-experience in the games industry
- You participated in one or more complete game development cycles
- You worked with versioning systems like SVN or GIT
- You know about DOD
- You speak German
- You have experience with performance optimizations (e.g. parallelization)
- Solid basic physics knowledge (especially kinematics)
- You know how to write shaders (GLSL, HLSL or Cg)

☐

Additional Note: This is a full-time position that is available right away!

☐

Legal Note ☐ (req. by Austrian Law): In case of an employment you'd be categorized as "Spezielle Tätigkeit 1" of the "IT Kollektivvertrag".

☐

☐
