About Online Casino Deutschland

BE PART OF
SOMETHING SPECIAL
A diverse and exciting range of
careers are available to you at [Online Casino Deutschland](http://Online-Casino-Deutschland.com)

Games-Career.com ist ein Angebot von:

Quinke Networks GmbH
Bei den Mühlen 70
D-20457 Hamburg

At the heart of our business philosophy is ensuring we provide our customers with an environment that is enjoyable at the same time as being safe and responsible. At Online Casino Deutschland we are passionate to ensure that our customers enjoy gaming in an atmosphere that is firmly established on the values of respect, responsibility and professionalism.

WHAT WE'RE LOOKING FOR

At our Casinos we aim to attract and select the very best people to represent our brands. Aside from technical expertise, we seek people with a genuine passion for delivering exceptional customer service, who will strive to help us consistently create an outstanding experience for our customers. We offer a wide range of career opportunities at all levels with many roles and different career paths for new recruits to choose from. The people who reflect our brand values are those committed to delivering the highest standards of service and who take pride in their work. We look for people who are enthusiastic, positive and who let their personality shine through. We welcome people who thrive working in a busy, fast paced and exciting industry and who can be flexible in line with our 24 hour industry.

***** Web Developer/Designer (Contract Role)

We are searching for a creative individual with a passion for web development and design to join our Marketing team on a part-time contract basis. You will be responsible for the development of our corporate website, including templates, themes and functional components. One day you may be designing content for our paid media and the next you may be focused on developing and implementing changes to our website. This Web Developer/Designer position requires someone to be onsite in our German office during the course of the contract, and is not open to 3rd party candidates.

Responsibilities: Maintain and modify corporate website: Use PHP, MySQL, HTML5, CSS, JavaScript, and other standard web languages to develop WordPress based websites, ensuring responsive and adaptive designs that meet usability and accessibility web standards and best practices. Have a working knowledge of setting up and maintaining WordPress installations. Assure programming and procedures are documented for audit, backup and business continuity purposes. Create modular programming for ease of reuse, using efficient code that meets professional standards and is scalable and secure. Test and verify interface functions on assorted devices, including PC and Apple based browsers, iPad, iPhone, and Android. Document all code through inline documentation and Wiki. As part of the Marketing team, you will collaborate with internal business groups to conceptualize, develop, and deploy web projects. Leverage digital media to strengthen brand awareness and engagement to deliver the company's digital marketing initiatives. Collaborate with UX Designers, Content Marketing, Product Marketing and Field Marketing stakeholders to maintain brand image and consistency. Work with engineering and operations teams to communicate production changes, ensure sites and systems are secure and platforms are up-to-date. Evaluate and capitalize on new web trends and technologies. Develop customized campaign landing pages and email templates. Help drive prospective clients to company web site to maximize campaign impact and effectiveness.

Requirements: Minimum 2 years experience in graphic design and UI Proven success

Games-Career.com ist ein Angebot von:

managing complex web projects through entire development cycle Familiarity coding HTML for web and mobile and CSS as well as working with major graphics suites Knowledge of UX capabilities using JavaScript Experience planning, conducting and analyzing user testing, online and offline a plus BA/MA/BFA in IT from a top school or equivalent professional experience preferred.

Our Ideal Candidate is Someone Who: Has a passion for good, clean design across disciplines Has front-end development experience to bring designs to life (i.e., you can cut HTML/CSS and code JavaScript) Believes design is a necessary element of strategy Loves figuring out what makes a brand connect with people Leads by executing, not managing Works well independently and in cross-functional groups Dislikes bureaucracy, likes organization, and knows the difference Can jump into a lead role, regardless of previous experience Bonus Points For: Working on WordPress projects Designing for mobile Building stunning PPTs Video editing, animation, and animated typography.

Location: Berlin, Germany - headquarters

Rate: \$25-35/hour

Length: 3+ months

Hours: 20-30 hours per week

****Please submit your portfolio of websites you've worked on when applying.****
