deliverables

- Implementation of new working methods with Jira
- Closely collaborate with project leads and team members to set up expectations and improve day-to-day workflows
- Create and act on testing plans for all projects, monitoring execution of QA team
- Recognize potential risks and bugs in the project
- Support with hiring, onboarding, coaching, and recognize the best allocation of QA team members per project
- Meet quality standards for all released products

□

Requirements:

- You've got a minimum of 4 years experience in the gaming industry
- You've been working in QA Management or in a leading QA role
- Track record of released products (ideally at least one mobile game that was maintained for a couple of months after it's initial release)
- Working experience with issue trackers (e.g. Jira), MS Office and Wiki
- Knowledge of QA methodologies
- Strong communication and documentation skills
- Passion for games and game testing
- Pro-activeness and strive for best quality
- Operative experience with mobile devices (iOS or Android)
- You are highly motivated, flexible and a team worker
- You have the ability to work self-directed and reliable
- You have a good command of English and German, both written and spoken

□

The ideal candidate also has:

- Experience working with remote teams
- Strong experience with JIRA and Confluence (preferably Jira Admin knowledge)
- Official QA certifications

□

What we offer:

- Work at a successful and ambitious company with a sustainable and transparent leadership style
- Work among an experienced and flexible team
- Being part of a strong family of European game developers
- Flat hierarchy in a creative setting
- Professional and friendly atmosphere
- An opportunity to grow and expand your network within the game industry
- Diverse and open-minded workplace culture
-
