Job description

As a **Software Developer C++ Mobile** you will be part of our agile, cross-functional and international development team. You will drive the development of new features as well as maintain and improve the current code of our game Forge of Empires.

□

Your Mission:

- Conception and development of the Forge of Empires Mobile game, based on C++
- Continuous refinement and optimization of existing features
- Working in a cross-component Feature Team (e.g. Game Design, Art, Backend)
- Ensuring a high product quality in close collaboration with Quality Assistence

Your Profile:□

- A degree in computer science or business / media information technology or a comparable degree
- Very good knowledge of object oriented programming in C++
- At least 2 years of professional experience in agile software development (e.g. SCRUM, Kanban)
- Excellent understanding of software architecture and design
- Good English language skills for our international team
- Willingness to always learn and improve, plus an independent way of working
- Passion for computer games and the games industry
