Job description

Ubisoft is a leading producer, publisher and distributor of interactive entertainment products worldwide and has grown considerably through a strong and diversified line-up of products and partnerships. Ubisoft is present in 28 countries and has sales in 55 countries around the globe. It is committed to delivering high-quality, cutting-edge video game titles to consumers. In our German offices in Düsseldorf and Mainz, we are working on brands like "Assassin's Creed", "The Settlers" and "Anno".

In order to continue delivering highly qualitative and innovative game plays we are looking for a

Senior Online Service Programmer (f/m)

This position will be located at □**Ubisoft Blue Byte, Düsseldorf (Germany)**.

□

Job summary:□

The Senior Online Service Programmer is responsible for developing the servers & online services and managing the interchange of data between players and the server/services/game, ensuring an unobstructed online gaming experience for all players.

□

Your tasks:□

- Optimize the network architecture of the game
- Oversee the development of innovative solutions to enrich the gaming experience of players in separate locations
- Protect the security of the information flow
- Program and optimize systems like match making and session flows

Qualifications□

- University Degree in Computer Science or any relevant qualifications with a strong technical background
- 6+ years of professional experience
- Excellent programming skills in C++
- Strong programming skills in Python
- Good programming skills in Java
- Expertise in online test framework and architecture
- Strong test strategy and design skills
- Good debugging and problem solving skills
- Strong ability for analyzing and extending existing code
- Proven leadership and coaching skills
- Good communication skills and ability & desire to work as a team player
- Very good English language skills (oral & written)
- Self-direction and motivation
- Passion for making and playing games

□

Pluses

- Deep understanding of game production
- AWS & Docker experience

☐

Your benefits

- Flexible work hours
- External trainings, education in our in-house guilds and knowledge sharing with other project teams
- Fresh fruits, special conditions for gym membership, support for child care
- Subventioned lunch meals, possibility to lent bikes for free or lease your own bike!

☐

We offer a highly interesting challenge as a team player including the possibility to show personal initiative and to work in an innovative and international company.

If you have fun working in the Game industry, please apply via our career portal (APPLY TO JOBS-BUTTON)
