### Job description

Limbic Entertainment is seeking a talented and experienced Senior Programmer (m/f) for an unannounced Unreal 4 project.

As our Senior Programmer (m/f) you have great passion for game development in all areas and especially in the use of Unreal. You have already worked for several years in professional environments and shipped several products. With this know-how you will be a key player in our agile team and a central spokesperson for the team. Working with and training younger colleagues will be a very important aspect of this position. You will have a strong ownership on all game client-related development steps and will be a main contact person for leads and management.
