Job description

Game System Designer (f/m) Focus on balancing

At Fluffy Fairy Games you will... take ownership of everything you do. Be in a unique environment, a true no-bullshit meritocracy where your skills and efforts really make a difference. Build fast and ship faster. Try hard and learn harder. Grow with every problem encountered. Be paid at industry level. Have access to management all the time.

And you will not... get your game killed in an intransparent gate process. Wait a week for a management decision. Compromise on a viable idea because of somebody else's gut feelings.

Games-Career.com is a service provided by:

Be surrounded by interns who shoulder much of the actual work without real pay or a chance to land a job. Watch the lead engineer fiddle about for days in search of a perfect solution if a solid hack would have solved the problem. Et cetera. You get the picture.

☐

Responsibilities

- Define the games' vision and feature set in collaboration with our young & motivated team
- Create compelling idle game systems -including data structures- in a fast and agile development process with weekly updates
- Focus on balancing in-game economy values
- Implement & improve our monetization features
- Research & stay up to date with other mobile / idle games

☐

Skills

- Solid experience in game design, preferably F2P mobile games
- Strong analytical & mathematical skills
- Advanced knowledge of Microsoft Excel
- Player-centric mindset and a sense for great user experience
- Knowledge of Unity3D is an advantage

☐

Join our team ☐ in Karlsruhe & continue your career with us in Berlin starting January 2018. We offer free fruits & snacks, a lot of Club Mate and coffee!

Please send your full application (CV, cover letter, work sample, certificates) to Sophie at jobs@fluffyfairygames.com
