### Job description

#### Internship Community Management (f/m)

**At Fluffy Fairy Games you will...** Take ownership of everything you do. Be in an unique environment, a true no-bullshit meritocracy where your skills and efforts really make a difference. Build fast and ship faster. Try hard and learn harder. Grow with every problem encountered. Be paid at industry level. Have access to management all the time.

**And you will not...** Get your game killed in an intransparent gate process. Wait a week for a management decision. Compromise on a viable idea because of somebody else's gut feelings. Be surrounded by interns who shoulder much of the actual work without real pay or a chance

Games-Career.com is a service provided by:

to land a job. Watch the lead engineer fiddle about for days in search of a perfect solution if a solid hack would have solved the problem. Et cetera. You get the picture.

□

### **Responsibilities**

- Create and support our growing community
- Develop content for different social media channels
- Analyse the previous community support
- Reply to players' questions and feedback

### **□Skills□**

- Passion for games, especially mobile games
