Job description

As a **Senior Mobile Unity/ C# Developer** you will be part of our agile, cross-functional and international development team. You will drive the development of new features as well as maintain and improve the current code of our new games.

□

Your mission:

- Conception and development of mobile apps for our games, based on C# and Unity3D
- Continuous refinement and optimization of existing mobile apps
- Collaboration with different departments (e.g. Art, Game Design, Backend)
-

Games-Career.com is a service provided by:

Conception of APIs, tools and workflows to optimize the interdisciplinary work

- Expansion of the mobile apps for new devices
- Ensuring a high product quality, together with Quality Assurance
- Foster a culture of sharing knowledge, best practices and standards

Your profile:

- A degree in computer science or business / media information technology or relevant professional experience
- At least 4 years of experience in using Unity or other 3D game engines like Unreal or CryEngine
- Very good knowledge of object-oriented programming in C#
- Professional experience in agile software development (e.g. SCRUM or Kanban)
- Excellent understanding of software architecture, design and test-driven development
- Deep understanding of the mobile platforms and their performance optimization strategies
- Profound experience of writing shaders using GLSL, HLSL or Cg
- Passion for computer games and the games industry

Desirable:

- Experience in development of UI, audio and animation systems
- Native mobile development experience on the iOS and Android platform
- Good CPU and GPU optimization skills
- Very good knowledge of 3D Math
- Willingness to continuously learn and improve, plus an independent way of working
- Good English language skills

Why join us?

- Shape the success story of InnoGames with a great team of driven experts in an international culture
- Competitive compensation and an atmosphere to empower creative thinking and strong results
- Exceptional benefits ranging from flawless relocation support to company gym, smartphone or tablet of your own choice for personal use, roof terrace with BBQ and much more

Would you like to become part of a dynamic team and work as a **Senior Mobile Unity/C# Developer** with us? Then we look forward to receiving your application (cover letter, CV and references) as well as your salary expectations and earliest possible starting date through our online application form at innogames.com. Your contact
