Job description

Ubisoft is a leading producer, publisher and Distributor of interactive entertainment products worldwide and has grown considerably through a strong and diversified line-up of products and partnerships. Ubisoft is present in 28 countries and has sales in 55 countries around the globe. It is committed to delivering high-quality, cutting-edge video game titles to consumers. In our German offices in Düsseldorf and Mainz, we are working on brands like "Assassin's Creed", "The Settlers" and "Anno".

Job Description

As a middleware developer you will be working on the latest Ubisoft UI middleware solution.

Games-Career.com is a service provided by:

Your mission is to collaborate with our worldwide distributed development teams and offer them solutions that allow them to create amazing products. You will be part of the Ubisoft Technical Group with a strong focus on PC optimization.

☐

Your tasks

- Developing and extending the UI middleware in close collaboration with the development teams
- Improve the User Experience of the UI tools
- Challenging and improving the UI integration workflow

☐

Qualifications

- Proficient in the C# language
- Very good C++ experience
- A good understanding of WPF, and the model to support it (MVVM)
- Excellent teamwork abilities
- Great interpersonal and communication skills; we integrate directly with teams around the world
- Fluent in English
- Self-organized and structured working attitude

☐

Additional information

Your benefits

- Flexible work hours ☐
- External trainings, education in our in-house guilds and knowledge sharing with other project teams
- Fresh fruits, special conditions for gym membership, support for child care
- Possibility to rent bikes for free or lease your own bike!
- Working in an innovative and international company

We offer a highly interesting challenge for a team player including the possibility to show personal initiative. ☐
