Job description

Your role @ Travian Games:

We are looking for an outstanding PHP Developer for our Solutions Team! The Solutions Team provides the infrastructure applications for our games and business department like Marketing, Payment or Customer Service. We develop applications mostly in PHP together with the customers and using agile development methods (i.e. Scrum and Kanban).

- You are responsible for designing, implementing and maintaining the software platform
- You support the customers in the definition of the requirements and creation of the user stories
-

You help our games to integrate our applications

- You improve continually your knowledge as a software developer and share your knowledge with your colleagues.

This is who you are:

- You have a degree in computer science or similar
- You have solid understanding of object-oriented design and design patterns
- You have a good knowledge of Service Oriented Architecture and of MVC frameworks
- You have very good knowledge of PHP (v5+) and MySQL
- You have experience in front-end JavaScript (not only jQuery) and CSS knowledge
- You are experienced in designing internal APIs (RESTful), working with JSON and XML and using external APIs (e.g. Facebook).
- You have experience in version control systems (ideally GIT)
- You have proven team and communication skills
- You are a quick learner with a fast perception
- Your English is fluent; German language skills are a plus

Why you should join us:

- Flexible working time
- Responsible tasks in a creative and exciting industry
- Team-oriented, open-minded working environment with dynamic and international colleagues
- Free fruits and coffee
- Regular get-together
- Global games oriented towards long-lasting gaming fun
- Munich is a modern, cosmopolitan city and provides a fantastic range of leisure activities

Can't wait to talk to us? We are looking forward to your application including CV, references and earliest possible date of employment via our homepage.
