Job description

Your Crew

Our 6-strong QA not only works very closely with each other, but because of our approach of "Embedded QA" each tester is also completely integrated in the development team. Learning from each other so directly means the optimization of the games. Responsibility and making own decisions is not only very welcome but required.

Mission Briefing

- Manual testing for a new console title
- Creation and maintenance of test cases, check lists and test documents
-

Games-Career.com is a service provided by:

Identification, isolation and documentation of bugs, glitches and other problems clearly and concisely in our bug database

- Elaboration and introduction of new QA processes for the studio in areas like submission management and testing, advanced training, automated testing etc.
- Close collaboration with scrum masters, producers, and other leaders from teams across studio and HQ to assess their quality assurance needs and ensure that they have the resources necessary to reach high-quality results

You will play a major role for the gaming experience of our new console title and help us to maintain a premium level of quality in all of our games with the perspective of becoming Lead Tester at Deep Silver FISHLABS.

Your Skillset

- 5+ years' experience in testing
- Experience with console game development (Xbox, PS4, Switch)
- Experience in organizing tasks and schedules within a small team
- Gamer with a solid experience spanning several games and genres
- Solid understanding of gameplay mechanics
- Aptitude for gaining understanding of new technologies and processes quickly
