Job description

Wargaming Mobile, a team of passionate and dedicated professionals, is looking for a Sr. DevOps Engineer (m/f) for our recently opened Berlin office.

You will join a fast-growing engineering team and spearhead our assault on building a highly scalable, automated infrastructure. This is a fantastic opportunity for a seasoned DevOps professional to introduce new technologies and take ownership of our process and methods and to shape our DevOps culture and environment. The right candidate will have the freedom to make decisions and to make a big impact on Wargaming's exciting mobile tech hub.

Wargaming Mobile Berlin provides a unique opportunity to work in a "startup" environment but be part of a hugely successful global business, employing over 4,000 people.

Games-Career.com is a service provided by:

What you will do:

- Build and maintain the infrastructure that underpins our mobile games platform
- Provide 24/7 support to our games development engineers
- Assist game teams in optimizing their server architecture for reliability, cost, and performance
- Participate in greenfield projects (microservices, web services) from the start
- Build self-service deployment tools and optimize deployment patterns for ease of use and reliability
- Perform automatization and then even more automatization
- Share your knowledge within your team and mentor junior team members

Requirements:

- Strong knowledge of Amazon Web Services and cloud computing, Open Stack, Google Cloud Platform, Linux
- Proficient in bash scripting and Python
- Azure knowledge
- Docker knowledge
- Deployment scripts and release engineering (Jenkins, Bash, Python, RPM, etc.)
- Good communication skills
- Team player
- Flexibility and agility to work in a startup environment
- A passion for gaming (desirable)
- Bachelor's or master's degree in computer science

What we offer:

- Joining an international team of people passionate about gaming
- Working in one of the main European hubs for mobile game development
- Startup within a company with 20 years of experience in game development
- Flexible working hours & work from home
- Unlimited leave upon manager approval
- Public transportation ticket
- Company cell phone of your choice
- Gym membership
- Snacks, drinks, and fruit in the office
- Home internet reimbursement
