Job description

We are currently seeking a talented and experienced Content Designer for our newly announced project The Cycle. Join us in shaping the direction of the project as a driving force in Game Design and push the boundaries to deliver a unique user experience. We're looking for people who love the idea of working together in interdisciplinary teams and a fast-paced and professional environment.

☐

Responsibilities

- Design and prototype various types of gameplay content based on existing systems
- Implement and balance gameplay features from initial design to final polish
-

Create and maintain internal design documentation, including feature specifications and implementation guides
- Collaborate with the team to ensure the implementation of content, collaborate with different departments, such as art, narrative and sound design to deliver the best experience to the players
- Iterate, balance and tune gameplay content and features based on ideas and feedback from team, QA and play testing during the whole production

☐

Qualifications

- 5+ years of industry experience within AAA, ideally in a content design capacity
- Ability to deliver under deadlines and time constraints
- Excellent verbal and written communication skills in English
- Avid gamer with knowledge and understanding of various games and game types
- Passionate about videogames
- Experience with Unreal

☐

Desirable skills

- First-person shooter experience is a plus
- Scripting languages or basic programming skills
- Experience with Scrum and Kanban production methods

☐

Employment details

- Full-time and on-site
- Status: employment
- Start: as soon as possible

☐
