### Job description

With your passion for games, you will work on the frontend and backend of those for messenger platforms. As a full stack developer you enjoy both, ensuring the performance of the backend and collaborating with artists and designers to bring gameplay features into our games. With your expertise you work as part of a team to create awesome gaming experiences.

### RESPONSIBILITIES

- Work on the frontend and backend of messenger platform games (such as Facebook Messenger Instant Games)
- 

Games-Career.com is a service provided by:

Bring gameplay features with all multimedia aspects into our games

- Help ensure stability, scalability and performance of the backend
- You prioritize, multi-task and perform in a deadline oriented environment

## REQUIREMENTS

- University degree in the fields of Computer Science, Computer Engineering or comparable qualification
- 3+ years of professional experience in developing video games
- Extensive practical knowledge used in a professional environment such as HTML, node.js, Java, PHP and JavaScript/TypeScript and/or similar
- Profound programming skills with best-practice knowledge
- Experience with game engine middleware such as Cocos 2D and/or Play Canvas is a plus
- Experience in graphics programming is a plus
- Good problem analysis skills and ability to find simple, robust and efficient solutions for complex problems
- You are a team player who enjoys working with other departments on shared goals
- Passion for games
- Fluent in written and spoken English
