Job description

Your Crew

As a vital member of a small Art team you will be working on state-of-the-art 3D SciFi games in a positive and productive environment. By close collaboration not only with Art but also with other teams like Game Design and Programming and mutual feedback you will further develop both technically and personally.

☐

Your Mission

-

Games-Career.com is a service provided by:

Team up with dedicated Level Designers and Artists to ensure the gameplay spaces support story, mood and gameplay requirements

- Create cinematic space environments, gigantic space stations, vast asteroid fields and disasters of galactic proportions
- Unleash your imagination and get inspired by blockbuster movies
- See your work come to life in the Unreal Engine on Playstation4

□

Your Skillset

- You have demonstrated your ability to establish compelling environments for at least one AAA production
- Excellent sense of world building, including composition, propping and lighting
- Expert in Unreal world building, materials and lighting
- Knowledge of effective asset creation and optimization
- Comfortable with "kitbashing", preferably using 3DStudio Max
- Excellent team-oriented worker focused on reaching common goals, communicating with others, pushing quality and being proactive

□

Mission Support

We are just as passionate about our games as we are about their creators (Could that be you?!). Your job comes with personal responsibility, freedom and short decision-making routes. And most importantly - A motivated, international team full of fellow gamers.

The studio is located in a bright, modern office, right in the center of Hamburg. With a selection of benefits for all our staff: Including discounted gym membership, fresh fruit and a variety of free drinks. A healthy work-life balance is important to you? For us too! That's why we are also awarded as a family-friendly workplace. Coming from abroad? No problem! We also offer relocation packages.

Sounds good? Take a look here: □ www.dsfishlabs.com
