Job description

Numbers are worth a thousand words. We are therefore looking for an experienced **Data Scientist/Analyst** to enhance our analytics team in game analysis, marketing analysis, data mining and market research. With your experience in statistical methods of data analysis and data science, you use your skills in SQL and R or Python to develop machine learning algorithms such as testing tools that make our work more efficient and straightforward.

Your mission:

- You define, create, and implement complex quantitative models for projection to evaluate user behavior
-

Games-Career.com is a service provided by:

QUINKE
NETWORKS

Quinke Networks GmbH
Bei den Mühren 70
20457 Hamburg / Germany

You evaluate A/B tests and multivariate tests as a basis for important and risky product decisions
- You draft and implement machine learning and deep learning solutions for different use cases, e.g. lifetime value projection, user churn prediction, outlier detection, etc.
- You edit large amounts of data in visually concise and comprehensible ways
- You closely cooperate and share knowledge with the other departments, e.g. Game Analysis, Product Management, CRM, etc.

Your profile:

- You have a university degree with a statistical/mathematical background (e.g. social sciences, psychology, IT, mathematics)
- You have at least 3 years of professional experience in the field of data science and analysis
- You are experienced in the application of machine learning algorithms for the development and implementation of new analysis tools
- You are proficient in SQL and R/Python
- You have already proven your skills in stakeholder and project management
- You are a solution-oriented team player who is open to new impulses

Why join us?

- Shape the success story of InnoGames with a great team of driven experts in an international culture
- Competitive compensation and an atmosphere to empower creative thinking and strong results
- Exceptional benefits ranging from flawless relocation support to company gym, smartphone or tablet of your own choice for personal use, roof terrace with BBQ and much more

☐

Excited to start your journey with InnoGames and join our dynamic team as a☐**Data Scientist/Analyst**? We look forward to receiving your application as well as your salary expectations and earliest possible start date through our online application form. **Sandra Wandschneider** would be happy to answer any questions you may have.

InnoGames is Germany's leading developer and publisher of mobile and online games. The company based in Hamburg is best known for Forge of Empires, Elvenar and Tribal Wars. InnoGames' first mobile title Warlords of Aternum is a fantasy turn-based strategy game. InnoGames' complete portfolio encompasses seven live games and several mobile titles in production.

Born as a hobby, InnoGames today has a team of 400 employees from more than 30 nations who share the passion of creating unique games that players across the globe enjoy for years. In order to further expand our success and to realize new projects, we are constantly looking for young talents, experienced professionals, and creative thinkers.
