Job description

We are currently seeking a talented and experienced Technical Designer to work with us on an unannounced project. Join us in shaping the direction of the project as a driving force in Technical Design and push the boundaries to deliver a unique player experience. We're looking for people who love the idea of working together in interdisciplinary teams and in a fast-paced and professional environment.

As Technical Designer at YAGER you will:

Games-Career.com is a service provided by:

- Work closely with Designers and Engineers acting as an interface between them
- Implement or extend features that require work with content and script or code
- Find solutions to complex problems and enable others to overcome technical challenges
- Represent the tech department for game and level designers
- Support, educate and troubleshoot. Be a go to person for various Unreal Engine related issues
- Identify workflow issues within the design department and suggest / implement solutions
- Be familiar with blueprint architecture and scripting guidelines and ensure that they are followed through
- Review and improve the interface between code and blueprint functionality
- Create gameplay prototypes and their final in-game implementation using Unreal Editor and Unreal's scripting system (Blueprint)
- Collaborate with departmental leads and design team to develop core concepts and game content
- Meet deadlines and manage tasks effectively
- Document new gameplay systems
- Collaborate with Technical Art to create the workflows and production paradigm for level building (e.g. modular systems)

Qualifications

- 3+ years of technical design experience; previous design experience on shipped AAA action game titles or Unreal Engine mobile titles
- Have a broad knowledge of Unreal Engine's gameplay systems and feature set and apply them to our games
- Strong understanding of multiplayer technical design
- Strong understanding of the fundamentals of game design
- Demonstrable success in creating compelling player experiences (game play, scenarios, activities, encounters)
- Ability to take and apply direction and work well in a team environment
- Experience with scripting languages, either visual or text based, such as Unreal's Blueprints
- Ability to communicate effectively in English, both verbally and in writing
- Passionate about videogames

Desirable skills

- Experience with level designing for cooperative multiplayer games
-

Games-Career.com is a service provided by:
