Category ☐☐☐☐☐☐☐☐ **Software Engineering**

Experience ☐☐☐☐☐☐☐ **several years**

Earliest start date ☐☐ **as soon as possible**

☐

Your Talents:

-

Games-Career.com is a service provided by:

You have a sound knowledge of Haxe or ActionScript and/or JavaScript

- You have experience with native mobile development for iOS and Android
- Clean code should not be a foreign concept to you
- You have good writing and speaking proficiency in English and German

☐

Your Tasks:

- Develop the frontend for our browser game as a member of an open-minded team and participate creatively in the development process (from planning to conception to implementation)
- Implement high-performance code for the applications in Haxe
- Constantly evaluate new possibilities to optimize the product and bring yourself with new ideas into the product development
- Use your expertise as a valued contact for technical questions - both in-house and in communication with other Travian locations

☐

Beneficial Talents (not required):

- You have experience with AngularJS and Gradle
- You have worked with Git/Perforce before
- You have experience in working with Jira and Confluence
- You have worked with SCRUM before or at least are familiar to working agile

☐

What we offer you:

- A pleasant working atmosphere and great colleagues.
- Flat hierarchies with creative processes. Bring in your ideas!
- Agile project management and mindset.
- Fresh fruit and really yummy Müsli.
- A free membership for Interfit (interfit.de)
- Participation in the Jobticket program
