Key responsibilities:

☐

- Further development of our high performance backend (separated over several, globally located data programming centre) – mostly written in PHP☐

- MySQL comes across limits in many places, let us establish new databases together. ☐

- For you, it does matter whether an API call takes 800ms or 150ms…

- Help building an event system from scratch using AWS Kinesis streams, Go microservices, RabbitMQ, Elasticsearch and a React frontend.

☐

How the optimal candidate may look like:

- Experience in Javascript and/or React Native is mandatory!

- You worked at least with one js framework like react, vue, angular or similar

- You are also interested in building backend applications with node

- Optional: Experience with TypeScript, ES6/ES7, HTML5, CSS3, SASS, git, Node.js, yarn, npm, Testcafe, Golang

☐

What do we offer?

- Working in Europe's fastest growing ad-tech company, located in, the „Hamburger Schanze"

- Highly motivated startup team with strong digital background

- regularly recurring team events, company vacations, off-sites and parties

- Space for your own creativity - if you have convincing arguments - feel free to create the non existing

- Last but not least, we provide free drinks, snacks, flexible working hours, support for HVV-Proficard, free gym membership☐& a competitive salary☐
