Job description

As DevOps Engineer you will closely collaborate with our Lead Developers and take over ownership for our tech stack including AWS, Docker and Gitlab. Our constant search for improvement opportunities will greatly require and allow you to bring in your own ideas.

AppLike is the fastest growing Adtech Company in Europe, running app marketing platforms in 27 countries. Our mission is to develop software that runs on every mobile device on earth. Under the umbrella of the media company Bertelsmann, we have access to a global network of experts and a strong financial backup. By developing a state of the art tech stack and highly skilled people, we aim to reach more mobile users than every other company in the world. If you like to challenge yourself and want to work in a high performance environment,
