Job description

We are looking for a skilled and experienced Linux System Administrator (m/f/d) who will join our team in Berlin. The ideal candidates will be flexible, enthusiastic, and innovative with a strong background in Linux environments with at least 2 - 3 years of relevant experience.

Your responsibilities:

- Responsibility for the administration and operation of the Linux servers supporting our mission critical systems (24x7),
- Design of future server/cloud landscape and standards
-

Games-Career.com is a service provided by:

- Lead projects within the area of responsibility and contribute to cross-functional projects
- Continuous improvement of current processes and systems, judging on new technologies
 - Monitor server/VM performance and remove bottlenecks.
 - Resolve Linux server related issues reported by users
 - Create, oversee and test security measures (e.g. access authentication and disaster recovery)
 - Create and maintain online documentation for server/cloud environment

□

Requirements:□

- 2 - 3 years of experience with Linux (Centos preferred)
- Experience with private (Open Nebula preferred) and/or public cloud environments
- Scripting in Bash
- Basic knowledge of MySQL
- Good understanding of TCP, IP and other network protocols.□
- Familiarity with DNS, DHCP and other network services.
- Good written and spoken English skills

□

Nice to have:□

- Experience with Monitoring tools - Zabbix and StackDriver
- Knowledge of CI\CD and experience (We use Jenkins)
- Knowledge of Docker (Swarm, Kubernetes)
- Basic familiarity with Windows and Powershell

□

What we offer:□

- A challenging job with lots of responsibility and freedom to grow professionally and acquire new skills
- A fun and lively work environment in an energetic gaming company
- A team of passionate colleagues
- Regular company parties and team events
- A competitive salary
- Relocation Support
