Job description

RetroBrain R&D has been developing therapeutically and preventively effective video games for dementia patients and healthy senior citizens since 2014. Our 22-strong, interdisciplinary and age-diverse team is jointly developing and establishing the memoreBox, the eHealth solution from RetroBrain. Since 2015 it is considered "a benchmark in the therapeutic gamification industry" (LIFT Basel). The memoreBox reduces the effects of age-related diseases such as dementia, reduces the risk of falls and promotes inclusion in retirement homes through joint activities. The memoreBox is scientifically evaluated at the Charité Berlin, the University Medical Center Hamburg, the Humboldt University, the Diakonie and with BARMER, among others. RetroBrain is supported by various sponsors (including the Charité Foundation, Microsoft and the City of Hamburg) and has received a number of awards, such as the "Digital Health Ger-many Award" from CISCO, the Social Business Award (SensAbility) from WHU, the Rudi-Assauer-Prize and many more.

We are looking for a full-time colleague (40 hours per week) to join us as

Unity Developer with focus on Virtual Reality (f/m/d)

☐

Your tasks
- Further development of the product portfolio, especially in the field of virtual reality
- Development of motion-controlled video games in the digital health sector
- Maintenance of the project infrastructure
- Exchange with external project partners

☐

Your profile
- Experience in VR/AR development
- Safe handling of Unity and C#
- Experience with Jira and Confluence an advantage
- Agile Project Management and Scrum are no foreign words for you
- Independent working style with pleasure in creative work and high motivation

What we offer
- A varied field of activity, which you actively help to shape
- Time for further training and personal development is a matter of course for us
- RetroBrain is an international pioneer in the field of Digital Health with a clear growth strategy and strong partners
- A dynamic, age-diverse team and a collegial working atmosphere round off the work at RetroBrain
- Coffee, tea and fresh fruit are always available
- Parking spaces are available for our employees within walking distance at no extra charge

☐

Want to make a difference?
Then apply by e-mail (with a CV including your salary expectations and references).
We look forward to hearing from you!
