Job description

We are looking for an SAP Lead for our new SAP team that has the ambition to take responsibility for and develop our ERP system. You are more of a generalist than a specialist and know your way around various SAP modules, but especially MM/SD. You will focus on ABAP programming, integration with other systems and the individual adaptation of modules. In this position, you will work closely with colleagues from various fields, including Business Intelligence and IT. The most important customers are the accounting, controlling and human resources departments. In addition to a high technical affinity, you enjoy communicating with your colleagues. You are driven by the desire to offer an excellent service and to make life easier for your customers.

☐

RESPONSIBILITIES

- Drive the further development of the SAP ERP landscape□
- Overall responsibility for and design of our ERP system□
- Support of exciting SAP topics throughout the entire project cycle (from concept to customizing, development & project management to documentation and support)□
- Responsibility for integration with SAP BW and other applications□
- Lead a small team of SAP (ERP and BW) specialists□
- Advising our specialist departments on process analyses and IT interface topics□
- Takeover of training and support of key users□
- Coordination of external service providers□
- Introducing and implementing your own ideas amid an international team of specialists in all areas□

□

REQUIREMENTS

- 5+ years of experience in SAP/ABAP development□
- 2+ years experience in IT Management, leading a small team□
- Knowledge of the adaptation of SAP modules (at least MM/SD)□
- Experience in working with SAP BW□
- Experience in backend and interface programming is an advantage□
- Familiar in working with large data sets□
- Familiarity and understanding of business processes in the areas of finance and HR□
- Ambitious in supporting users and specialist departments□
- Fluent in written and spoken English is necessary
- Fluent in written and spoken German is an advantage□
