Job description

Your Crew

The Core Tech team focuses on anything related to engine, tools, performance, and platform support. We also make sure our games stay on the cutting edge by exploring new technologies and ideas.

- Make sense of existing codebases quickly.
- Work comfortably on any part of the code - be it the game, the engine or the tools.
- Optimize and debug confidently.
- Contribute your ideas on how to push the tech forward.

Your Skillset

- Minimum of 5 years previous experience in a similar position
- University degree in computer science (or comparable education)
- Ability to implement simple, robust and efficient solutions to complex problems
- Very good debugging skills
- Excellent working knowledge of C++
- Good working knowledge of multi-threaded programming
- Good knowledge of the English language
- Experience in working with modern graphics APIs (Direct3D, Metal, Vulkan) is a plus
- Experience in software optimization is a plus
- Experience in development of networked games is a plus

Mission Support

We are just as passionate about our games as we are about their creators (Could that be you?!). Your job comes with personal responsibility, freedom and short decision-making routes. And most importantly - A motivated, international team full of fellow gamers.

The studio is located in a bright, modern office, right in the center of Hamburg. With a selection of benefits for all our staff: Including discounted gym membership, fresh fruit and a variety of free drinks. A healthy work-life balance is important to you? For us too! That's why we are also awarded as a family-friendly workplace. Coming from abroad? No problem! We also offer relocation packages.
