Job description

Sixteen Tons Entertainment, developer of the renowned EMERGENCY series, is looking for an Unreal Engine Developer to join its team of passionate game developers on-site in its studio in Tübingen near Stuttgart or in Berlin.

As Backend Developer, you will play a key role in programming high-quality serious and consumer games. You will work closely together with game designers, artists and project managers.

☐

Your tasks:

-

Further development and maintenance of existing gaming backends with PHP
- Assistance on administrative backend tasks
- Adjustments to the backend interface on client side, using the Unity Engine / C#
- Contribution of your own creativity to our products and implementation of game design concepts

☐

Qualifications:

- Bachelor's Degree in Computer Science or similar
- At least 2 years working with a professional game or application development team
- Good knowledge in the following areas:
  - Web development with PHP, MySQL
  - Linux servers
  - A plus is familiarity with Unity / C# with focus on mobile games
- You have no difficulties working with large software projects
- Ability to communicate effectively in German or English
- EU citizenship or a valid working permit for Germany
- Passion for games

☐

What we offer:

- Play a central role in a team that has been making games for over 20 years
- Take part in the development of the globally successful "EMERGENCY" game series
- Challenging and exciting game projects
- A highly motivated team with a flat hierarchy and fast decision making

☐
