### **Your mission**

- You support us in the development and optimization of games as well as adaption of project plans for internal coordination
- You work with our ticket system JIRA to push forward the development of projects
- You communicate daily with different departments about tasks, concepts and feedback iterations
- You support our game teams in meeting the needs of our players

### **Your skills**

- You have a feel for the games market as well as game-related trends
- You have an understanding for the processes of game production
- You have first experiences with writing concepts and reports
- You are passionate about online games and have a good understanding of Games as a Service
- You enjoy working in a team environment and are keen to learn more through practice

### **Your Gameforge setting**

- An international company awaits you! English is our company language, as employees from over 25 nations are part of our team
- No kettle-oriented work experience! Hit the ground working and take responsibility from day one
- Flexibility and safety are important to us! We reacted quickly when the Corona pandemic began, enabling all our employees to work from home. When you join us, you will enjoy a structured digital onboarding program and the work equipment sent to you.
- Where colleagues become friends! Regular team events and an open company culture
