Job description

As a ☐Senior☐Level Designer☐for our unannounced project, you are responsible for creating levels both in open world and linear spaces that support exciting co-op gameplay. This role will work closely with art, narrative and gameplay to deliver challenging combat, meaningful exploration, and memorable player experiences.

We believe the best games are made by diverse teams and welcome applicants from all backgrounds.

Responsibilities

-

Games-Career.com is a service provided by:

- Blockout, build, playtest, and tune 3D levels through all phases of development
- Craft memorable combat encounters, and work with gameplay designers to hone these experiences to perfection
- Create fun gameplay spaces focused on the game's core mechanics
- Collaborate with art and narrative to deliver environmental and scripted storytelling through our levels

□

Qualifications

- 4+ years experience as a level designer
- Strong understanding of level design principles and theory
- Unreal game engine experience
- Multiplayer level design experience
- Excellent verbal and written communication skills
- A desire to grow, learn, and improve as a designer
- Positive, enthusiastic, team-oriented attitude

Desirable skills

- Co-op level design experience
- Open world level design experience
- Scripting experience, for example with Unreal Blueprint

Employment details

- Full-time
- Status: employment
- Start: as soon as possible
