Job description

GameExPro is looking for a talented Unity Programmer to join our team for a VR Escape game project starting in Mai 2022. The position is meant to be long term with future projects and other areas of personal development possible.

What you will do

- Build primarily 3D VR experiences using the Unity engine.
- Implement gameplay mechanics and collaborate with 3D artists and design.
- Participate in building the architecture for multiplayer VR experiences.
- Participate in design and code reviews with the software team.
-

Games-Career.com is a service provided by:

Create in-house authoring and debugging tools.

- Occasionally work on other game projects outside of the VR scope.

☐

What you will bring

- Strong knowledge and experience in the Unity engine.
- Strong knowledge of c#.
- Professional experience is a plus.
- Previous experience working in the VR games industry or in the context of Escape Games is a plus.
- You need a work permit in Germany or a European citizenship
- You must be willing to relocate to the Berlin-Brandenburg Region

☐

What we offer

- An increasing variety of different projects to work on
- A company that focuses on work done instead of time spent
- Flexible work hours and home office
- A boss that respects your off time

☐

Who we are

GameExPro is was founded in 2019 by senior and veteran Members of the Games Industry. We develop our own IPs, focusing on VR experiences and co-productions with other studios. Working with us means working in a variety of different genres and platforms in an increasingly international setting. Work starts in Mai in Berlin.
