ABOUT THE ROLE

We are looking for a skilled Data Analyst who wants to support us in providing information that will improve our games. We're looking for people who love the idea of working together in interdisciplinary teams and a fast-paced and professional environment.

YOUR MISSION

- You'll create and provide on-going reports and monitor the performance of our games
- You'll transfer complex mathematical relationships into actionable dashboards, presentations and talks; you'll edit large amounts of data in visually concise and comprehensible ways
- You'll define, create, and implement complex quantitative models for projection to evaluate user behavior, and you'll identify the decisive predicting variables for successful customer retention steps
- You'll evaluate A/B tests and multivariate tests to optimize mission-orientated decisions
- You'll work closely with other stakeholders, e.g. Design, Product Management, Publishing, etc.

YOUR SKILL TREE

- 3+ years experience as a data analyst / scientist or in a similar position, preferably in the gaming industry
- University degree or comparable qualification with a statistical / mathematical background
- Able to apply machine learning algorithms for the development and implementation of new analysis tools
- Experience in working with SQL, R/Python and MS Office
- Experience in data visualization like e.g. Tableau, QlikView or any equivalent
- Natural enthusiasm for quickly and independently learning new technologies
- Ability to communicate effectively in English, both verbally and in writing
- Passionate about videogames

READY FOR THE QUEST?

We support you all the way ☐

- Get settled. We offer relocation packages and budgets, provide temporary accommodation, administrative support and more. ☐
- We care about your work-life-balance with competitive vacation days and core working hours ☐
- Green travel at a discount. We offer a Company Ticket for the public transportation
