Job description

#TEAMYAGER ☐

YAGER makes computer games and is based in Berlin, Germany. Founded in 1999 by 5 enthusiastic gamers, we combine long-term experience with a resilient and innovative spirit. ☐

We are passionate about creating online action games with rich worlds, focused on social emergent gameplay. Our mission is to give players unique moments they can't wait to tell their friends about. ☐

ABOUT THE ROLE

Games-Career.com is a service provided by:

Do you enjoy working together in interdisciplinary dev teams, in a fast-paced and hyper-creative environment? Do you thrive on implementing cutting edge solutions to empower audio designers to create the most immersive and atmospheric experiences in the industry? Do you also love creating unique and innovative gameplay systems that you can be proud of for the rest of your life? If so, come work with like-minded game devs at YAGER!

We are looking for a talented **Game Engineer** with **Unreal skills and experience in audio engineering** to join the team behind The Cycle, a F2P multiplayer shooter packed with innovation. You will join in an exciting development phase and be part of an experienced team that has a lot to offer and encourages you to grow with us together!

We believe the best games are made by diverse teams and welcome applicants from all backgrounds.

YOUR MISSION

- Build and maintain proprietary tools for the audio department, including (but not limited to) technologies like occlusion, reverbs, and dynamic mixing
- Analyze, profile, and optimize all things audio to help deliver an amazing experience for the user without compromising performance
- Implement gameplay systems in a self-organizing, interdisciplinary team
- Write clear, maintainable and fast code in adherence to internal standards
- Write and maintain technical design and software system documentation
- Recognize opportunities to improve our games or general workflows and seek to make these changes

YOUR SKILL TREE

- Good knowledge of game engineering practices & techniques
- Excellent C/C++ programming skills
- Knowledge of audio production techniques
- Understanding and familiarity with DSPs and their effects
- Proven ability to collaborate with different disciplines, including sound designers, to discuss designs with respect to technical challenges
- Ability to communicate effectively in English, both verbally and in writing
- Passionate about videogames

Desirable skills (nice to have experience)

- 2+ years of programming experience with 3D games
- Experience with Fmod and/or Wwise integration
- Unreal Engine
-
