Job description

Level up!

Nintendo aims to deliver unique, intuitive entertainment experiences for everyone, manufacturing and marketing video game devices such as the Nintendo Switch™ family of systems, developing and operating applications for smart devices, and collaborating with partners on a range of other entertainment initiatives like visual content and theme parks.

At Nintendo, we bring together employees with a wide range of characteristics and work together towards a common goal – to put smiles on the faces of people all over the world.

Tasks

- Customizing and maintaining the middleware system in the Nintendo eCommerce landscape
- Monitoring the different system functions, interfaces to connected systems (log files) and implications to connected systems
- Being the contact for the internal customers and supporting them with the different requirements
- Handling tickets and coordinating all related activities from requirements management, debugging errors, alignment with all relevant parties, realization, testing to monitoring during and after deployment
- Coordinating the external service partner
- Cooperating with the different parties involved like UX design, Web Development, Logistics, Finance, etc.
- Supporting product releases or peak business phases by monitoring the system behaviour
- Managing users and authorizations

Requirements

- Degree in IT or related field or several years of equivalent professional experience
- Excellent skills in SQL and good understanding of web-services and APIs
- Very good analytical skills
- Good understanding of business processes and its dependencies
- Experience in running a web shop
- Experience with building and consuming web interfaces would be a plus
- Proven experience with demand management and requirement management
- Good written and spoken English and German language skills
- Teamwork-oriented mindset, structured working manner as well as proactive and solution-oriented way of working

Are you interested? We look forward to receiving your application, including your earliest possible starting date and salary expectation.
