## Your mission

- You'll support the team in preparing IT security information and translating it into tangible steps for other departments
- You'll help to build new systems
- You'll support the team in operational business
- You'll make changes to and optimise the IT infrastructure

## Your skills

- You're studying computer science, information technology or a similar discipline with a focus on IT
- You ideally already have some experience in information security as part of your student activities
- You enjoy sharing information with others and find it easy to explain things in detail
- You like working both independently and as part of a team and want to bring yourself and your abilities to the fore

## Your Gameforge setting

- An international company awaits you! English is our company language, as employees from over 35 nations are part of our team
- We support your personal and professional development! Language courses, teambuilding activities, seminars and more
- Where colleagues become friends! Regular team events and an open company culture
- Respectful behaviour is very important to us! Even if we disagree, we stay fair and on topic

## About Gameforge

Founded in 2003, Gameforge is a leading Western publisher and operator of widely acclaimed Massively Multiplayer Online (MMO) and browser-based game titles. Gameforge builds highly active and enduring global communities by supporting players through the greatest quality LiveOps, provision of localized content, engaging community management, and frequent delivery of meaningful updates.

Gameforge's diverse portfolio of highly successful gaming brands provides different worlds with engaging experiences for players from all walks of life: core MMORPG titles like AION Classic, Runes of Magic, and Metin2, beloved anime MMOs Elsword and NosTale, strategy-focused browser games like DGame and kariam, along with indie titles such
