Job description

Stillfront Group is a global games company founded in 2010. We develop digital games for a diverse gaming audience and our games portfolio is used by nearly 60 million people every month. Stillfront is focused on realizing synergies by connecting and supporting game teams around the world through our Stillops platform. We are a fast-growing company and an active global strategic acquirer. Our more than 1,500 employees feel comfortable in an organization that embodies the spirit of entrepreneurship.

We are looking for an experienced **DevOps Engineer** (all genders) to join our IT Operations team at Stillfront Group in Hamburg, Germany. As a DevOps Engineer, you will play a crucial role in the design, development, and maintenance of multiple new cloud-based applications and services. Join our team, contribute with your own ideas and help us to pioneer a unified gaming ecosystem for players across our diverse range of games!
