Job description

ABOUT THE JOB

Join the cutting-edge world of immersive technology at HOLOGATE as IT Specialist in System Integration! If you're passionate about integrating complex systems and ready to tackle intricate technological challenges, this role provides the ideal platform. Your expertise will be pivotal in ensuring seamless interactions between our systems, contributing to our mission of delivering next level extended reality solutions for entertainment and enterprise. Apply now!

WE OFFER

Games-Career.com is a service provided by:

Quinke Networks GmbH
Bei den Mühren 70
20457 Hamburg/Germany

- A competitive salary
- Intensive onboarding and individual training
- High growth potential
- Flexible work arrangements with core hours / work-life balance
- A great team spirit in a dynamic and international working environment

□

RESPONSIBILITIES

- Maintenance, planning and procurement of internal employee hardware
- Administration of Microsoft Azure, Active Directory, Microsoft Dynamics as well as other local programmes and cloud solutions
- Administration of virtualised server landscapes, e.g. VMware ESXi 6.x-7.x
- Support and development of the Atlassian Jira and Atlassian Confluence applications
- Analysis of technical problems and development of possible solutions
- Implementation of training courses and training concepts for users
- Development and administration of an automated test procedure / QA
- Participation in the selection of optimal hardware including the logical structure for current and future products in cooperation with the R&D department
- Close cooperation with the internal IT Security Specialist to ensure compliance with all necessary security measures

□

KEY QUALIFICATIONS

- Ideally 3-5 years of professional experience in a comparable position
- Sound knowledge of Microsoft Azure, Active Directory, Exchange Online, Microsoft 365 and Microsoft Dynamics
- Knowledge of Jira and the administration of Perforce and Jenkins desirable
- Knowledge of operating systems, servers and virtualisation (Hyper-V, VMware)
- High degree of initiative, willingness to learn and enthusiasm.
- A pronounced ability to think and act independently and analytically.
- Excellent communication skills in English and German
- Previous experience in the use of encryption technologies and procedures (SINA, certificates, etc.) is an advantage.

□

ABOUT US
