## Job description

### **Karlsruhe | hybrid working | full-time or part-time | from now**

We are one of the leading publishers of free-to-play online games based in Karlsruhe, Germany.

Do you want to work with AI technologies to develop innovative solutions in the field of automation and business intelligence? ☐

Then support the Business Intelligence team at Gameforge as a developer\* to help cleanse and enrich data with AI support and extract information to improve data quality and enable the automation of all kinds of processes. ☐

Quinke Networks GmbH  
Bei den Mühlen 70  
20457 Hamburg / Germany

□

## Your mission

- You develop and implement scalable, efficient, and reliable code to support AI-based data processing and analysis workflows
- You enable the automation of various business processes through the effective application of AI-driven solutions
- You maintain and update existing AI-powered tools and pipelines to ensure continuous performance optimization
- You analyze the effectiveness of implemented AI solutions and propose enhancements for improved results

□

## Your skills

- You are proficient in Python programming language, including its ecosystem and libraries
- You have experience with Large Language Models and Natural Language Processing techniques, including model fine-tuning and deployment of models
- You are skilled in using version control systems, especially Git, for collaborative development and continuous integration
- You stay updated with the latest developments in AI, NLP, and data engineering, applying this knowledge to continuously improve your solutions
- You enjoy sharing information with others and find it easy to explain things in detail
- You like working in a team and want to bring you and your abilities to the fore
- You know how to handle complex tasks without losing your cool

□

## Your Gameforge setting

- An international company awaits you! English is our company language, as employees from over 35 nations are part of our team
- The future's hybrid! □ Together with your manager and team, you can arrange how you split your time working from home or at the office
- Where colleagues become friends! Regular team events and an open company culture
- Every single one of us here bears responsibility! For our mistakes too, we live a culture of mistake tolerance

□

## About Gameforge

Founded in 2003, Gameforge is a leading Western publisher and operator of widely acclaimed Massively Multiplayer Online (MMO) and browser-based game titles. Gameforge builds highly active and enduring global communities by supporting players through the greatest quality

Games-Career.com is a service provided by:

LiveOps, provision of localized content, engaging community management, and frequent delivery of meaningful updates.

Gameforge's diverse portfolio of highly successful gaming brands provides different worlds with engaging experiences for players from all walks of life: core MMORPG titles AION Classic, Runes of Magic, and Metin2, beloved anime MMOs Elsword and NosTale, strategy-focused browser games like OGame and Ikariam, along with indie titles such as Trigon: Space Story and Tiny Thor.
