Job description

For our current project - a premium PC/console game based on the Star Trek license - we are looking for a motivated QA Manager to support us in the area of quality assurance.

☐

Your profile:

☐

- Experience in software QA, ideally in the games industry and with Unreal-based projects
- Experience with Agile development/Scrum
- Ideally, experience with test automation
-

Proficiency with Google products such as Google Docs, Sheets, etc.
- Good understanding of PC and console games
- Reliable, dedicated, and able to work well under pressure
- Well-organized, a quick learner, and possess good communication skills
- A team player who handles constructive feedback well
- Result-oriented with a passion for games
- Good communication skills (both verbal and written) in English
- Based in Hamburg or the surrounding area (partial remote work possible)

☐

We offer:

☐

- An exciting workplace offering significant responsibility and scope for initiative
- The opportunity to gain comprehensive insights into the development and publishing of PC and console games within a short timeframe
- Work within a small, international team with a close-knit, family-like atmosphere
- A creative work environment
- A flat hierarchy and short decision-making paths

☐

Feel free to get in touch if you have any questions; otherwise, please send your application to: info@gamexcite.com.
