Job description

42 Bits Entertainment is seeking a talented Mission Programmer for the development of their god game Fata Deum.

As a Mission Programmer you have great passion for games and its development, too.

You are experienced in the use of game engine toolsets such as Unity.

You will have a strong responsibility on various development steps related to our core software.

Your Responsibilities

- Create amazing missions and gameplay logic to improve the overall quality of the game
- Maintain and extend the Fata Deum code (C#) with support of AI with focus on Missions, but also for other areas like AI, Controls, etc.
- Integrate, maintain and modify Unity code assets
- Test and eliminate bugs
- Conceptualize, prototype, code, test and integrate your own missions and game logic
- Collaborate with the team to create engaging gameplay scenarios
- Contribute to the overall game wherever you like

☐

Your Profile

- Enthusiastic gamer with a passion for game development
- Experienced in working with game engine toolsets (best: Unity)
- Ability to work well independently and within a team
- Minimum 3 years game programming experience with a strong portfolio
- Experienced with AI coding agents
- Experienced with mission programming is a plus
- Experienced with C# is a plus
- Willing to relocate to the area around Jüchen, Germany
- EU citizen or a valid working permit for Germany is required
