Been invested in the Worldsoul Saga since the original BlizzCon announcement - Midnight finally delivering on Quel'Thalas after all this time feels genuinely surreal. The redesigned Silvermoon, the zones bleeding between Light and Void aesthetics, the smaller lore details in Zul'Aman. Currently progressing through Voidspire heroic with a semi-hardcore static, some of the more interesting encounter designs we've seen since Sepulcher. When we get properly stuck I pull up mechanical breakdowns - been using Skycoach for that lately.
